The Effect of the Measure.

That the repeal of the Missouri Compromise was a most unwise measure, on the part of the South, has already become apparent. Every day strengthens the indications that the entire North is to be a concentration and union of effort by all but the pro-slavery men in the North, against the continual encroachments of the slave power in this Union. Compromise and concession have been tried—faithfully, but in vain, for while the North has honorably stood up to her bargains, the South, by the aid of a few northern traitors, has faithlessly trampled on her compacts, and behind the binding force of her agreements. There is no longer hope of good faith on the part of the slavery propagandists—and with the departure of confidence in Southern promises comes a stern determination among the people of the North, to resist all further demands of slavery. No event ever occurred in the history of Congressional legislation, so strongly tending to unite the free North in resistance to slavery as the repeal of the Missouri Compromise. It is irresistably driving together all men, of all parties, who sincerely deprecate human bondage, and who are opposed to the universality of the slave power. This sentiment that such union is necessary to the preservation of Northern rights is this confederacy, for the maintenance of that spirit of freedom and progress which alone has made our country what it is, and for the salvation of the Union itself—has become so widespread, not only among ultra free-soilers and abolitionists, but also among the calmest and most considerate of our conservative people. Men who upheld and stood by the Compromise of 1850, as a hoped-for finality of the slavery agitation—"National" men who they fondly termed themselves—have now become convinced that there can be *no* finality to this question, until the free North presents an unbroken front in Congress against the further progress of slavery—It is felt that there must be this union of effort against southern slaveholders and their northern allies, in order to present any effectual resistance. A vast majority of their northern people are simply opposed to slavery, both in the abstract and the concrete. The Whig party north, especially on the question of the recent compromise repeal, is nearly a unit, and will throw its whole strength in favor of a uncompromising resistance to slavery hereafter—either alone or in combination with men of other party names. The entire free-soil party will, of course, gladly join in this issue—and a large portion, if not a majority of the democratic party, will follow their better instincts in such a contest. The great majority thus formed are united in the feeling, that the safety of the Union itself demands that the slave power shall be checked in its career of conquest and extension.

This is the condition of public sentiment which has been created or developed in the North, by the recent action of Congress. It is a sentiment long felt, but hitherto repressed in action, from an abiding faith in the efficacy of compromises. Was it not, then, an act of incredible folly on the part of the South to urge, or even to accept, a repeal of the Missouri Compromise? That Compromise was the very chief anchor of the institution—so far as its legitimate extension into any new territory was concerned.

We are told by Mr. Benton that the right of taking slaves into Kansas and Nebraska was not the great object of the recent effort by Southern men—but that it was the establishment of the *principle* that Congress shall no more prohibit slavery anywhere, which. Was really contended for—and this to the immediate end of introducing slavery without his restriction into the new territories to be acquired of Mexico by the Gadsden treaty. We have no doubt that this is the fact. But the South will find that it made a fatal mistake in the matter. Instead of establishing a principle which permits slavery to spread without let or hindrance over *all* territory, it has laid the foundation of a principle that it may be excluded from any territory. The Missouri Compromise was unassailed, at least, by many at the North, in permitting slave States to be admitted south of the parallel of 36 30. But since its abrogation here can be no such understanding. Every Northern opponent of the innovation now feels that a battle again is up—and that no obligation has rested on the North, either to organize any new Territories or to admit new slave States—and without the concurrence of the northern majority in the House, neither can be done.

We are told on the one hand that slaveholders will dissolve the Union, out of pure spite, if the North adopts the policy of excluding it, from policy, if allowed to go on and enlarge an that section by the stealing of Cuba and the purchase or conquest of a few more of the Mexican States. If we believe both assertions, the case appears to be without remedy, and the Union inevitably doomed. But we believe neither. There are yet enough of the South of cool judgment enough to know that a pure slaveholding confederacy can never sustain itself with a republican form of government. The genius of slavery is so intolerant of the sentiment of republicanism, its effect on the human mind so demoralizing and so reckless enterprise so blighting, that such a confederacy, lacking all vital principle for its support, would tend irresistably towards anarchy or despotism. The bond of this Union is freedom, not slavery. The controlling ascendency which the free States have had, in the church at least of the National Legislature, has been the essential element of strength to the Republic and it must be so in any Republic. If slavery gain a permanent ascendancy in all the Union and our Republic will surely come to an end. To prevent this consummation, therefore, a determined resistance is necessary to its further encroachments.

Total—Failure. To the general disappointment, the weather interposed an insuperable obstacle, yesterday, to a view of the eclipse. The sun was obscured by clouds, as well as by the moon—and more than ten thousand smoked glasses were mysteriously broken in disgust.—No a gleam of Old Sol was had by any body in this city—but we presume the affair came off as advertised, for it was considerably dark about the time. It rained here at intervals during the entire day. We hope the people abroad were more fortunate than we of this meridian—and that this rare spectacle of a solar eclipse has not passed off without witness.

A stray pig was picked up in the street and advertised in our paper, the other day, and in less than twenty-four hours, there were twenty-four owners after him. Do the pigs of Bangor have the freedom of the city?

The above occurrence shows the benefit of advertising; but we presume the result would have been more satisfactory to the applicants, if we had furnished each with a pig.

One hundred and thirteen guns were fired by the federal office holders in Boston, upon the passage of the Nebraska bill—one for each member who voted for it. They will prove to have been minute-guns for every northern man who thus voted.

☞ Members of the Musical Profession will notice a call for a meeting at the Hammond-st. Vestry, on Monday evening. The object is one in which they will all take an interest.

☞ The funeral of Mrs. Kiel, in consequence of the remains being taken to Bucksport for interment, will take place at 1½ o'clock to-day, instead of 2½ as before announced.

The Portland Argus says that there are now thirty-seven inmates of the Reform School.

Varieties.

Fourth of July at Augusta.—It is being the centennial year since the settlement of ancient Cushnoc, the citizens of Augusta intend to celebrate the Fourth in good style. The exercises will consist of an Oration, Poem, Fiscal Procession, Dinner, Exhibition of Fire Companies and Prize Trial of Ring nos, Fire Works, &c &c. Hon. Nathan Weston, a gentleman well acquainted with the history of the place, and an accomplished scholar, has been selected as the Orator of the day. Three prizes are to be awarded to fire companies from out of town—of the value of $10, $20, and $25 each.

Somerset & Kennebec Railroad.—At a stockholders' meeting in Augusta, on the 18th, the Directors were authorized to borrow funds for an amount sufficient to complete the road after the subscription of $400,000 is exhausted. It is estimated that $250,000 will do it.

The Season in Sagadoc.—Lieut Shoenagent Clapp of Tuesday says that the season is much more forward this spring, than it was last year at this time, and the indications are that there will be a most bountiful crop of grain, grass and fruit.

Antidote to Chloroform.—A French physician has announced that where there is danger of death from the use of chloroform, a shock of electricity will instantly counteract the effects of the chloroform, and restore the patient to consciousness and life.

John P. Hale has conditionally accepted an invitation to be present at a meeting of the free soilers in Peru, Oxford county, on the 4th of July.

A Sad Statement.—The Louisville Journal says that hardly an instance can be named where a man of any social position in Kentucky has been hung or sent to the penitentiary for killing a man in open day-light, though there have been what seemed to be very aggravated cases of such killings; and that the same thing is true of the whole South.

Willis & Lombard are again appointed liquor agents at Augusta.

Rev. N. C. Fletcher has resigned his pastoral charge of the First Universalist Society in Belfast.

Mr. J. B. Trull, formerly of the Cape and House, Tremaston, has taken the Franklin House, in Augusta, recently kept by J. P. Philbrook.

The Southern Methodist Book Concern is located at Nashville.

The Ohio papers say that the growing wheat crop is equal to any ever before seen—and that enough is sowed there to supply food such States.

The London Times expects the Eastern war to last a quarter of a century.

Colt has an order for a thousand revolvers to be used by the Chinese insurgents.

Many writers have defined what a good wife ought to be—but none more to the point than one who requires the same qualities as a roasted lamb—that it should be tender and nice by dressed.

Most ladies think it the summit of misfortune to be ugly. This is often a mistake—for homely women are apt to be the best at heart, and most frequently the richest prizes in the matrimonial lottery.

If a well-bred woman is surprised in dishabille, she does not try to dodge behind a door, nor turn red, nor stammer out excuses. She keeps her self-possession, and makes up in dignity what she may lack in decoration.

When you are low-spirited, and feel as looking at the world through a smoked glass, take to the country, instead of the bottle. An hour with birds and trees and streams will bring you more better than a dollar's worth of brandy-and-bitters.

If you would be always happy, however, take the papers. Nobody was ever out of work, or cash, who did that.

James Wilson is on trial at Boston, for the murder of William Adams, a fellow-prisoner at the State Prison, on the 19th of July last. He had plead not guilty upon arraignment, but on the trial he interrupted the Attorney General in his opening argument, as follows:

"Please your honors, I'll plead guilty—I don't wish to put the Court to any further trouble. I hope you'll permit me to say a few words, as I'm a foreigner and entirely destitute of friends. I have much to say, and I hope that you'll permit me to see the gentleman of the jury, and also the British Consul, at the jail, as I'd rather say what I wish to before them than to speak it out here in court."

Judge Shaw decided that his change of plea was too late, and the trial must go on. Insanity is the ground of defence by his counsel.

Recently, in a certain church in this city, where a certain doctor is choir leader, one Sabbath, the hymn given out by the minister, began with the following line—

"With humble purpose thy servant, Lord."

The doctor pitched the tune, and led off; but broke down before he sung the line. He tried a second and a third time with the same result, when a wag on the preaching floor rose in his pew, and turning his face upward to the choir, exclaimed; "Try some other *word*, doctor.—Exchange.

Musical Talent in Maine. The Musical Advertiser, (a new monthly published at New Haven, by O. W. Chase, has the following remarks, which we are inclined to think well founded. The musical talent of Maine needs higher cultivation, however, and we think much progress is being made to that end.

There is no State in the Union that has according to its population, more native talent than the State of Maine. This has been the birth place of some of the most distinguished of our distinguished men. Maine has no cause to blush for what she has done, and is now doing in respect to furnishing the world with her share of vigorous and superior native talent. And in respect to music, that divine art, we are not behind. We, venture the assertion that no State can, comparatively, show more respectable choirs, better qualified music teachers, or a more general musical knowledge than the State of Maine. The choirs will compare favorably with those of any other. You can listen to as poor church singing within ten miles of Boston, as you will find in any of the remote settlements of our own State.

From California.

New York, May 24.

The steamship North Star, from Aspinwall arrived at five o'clock this afternoon, with 700 passengers, and $450,000 treasure.

The shipments from San Francisco per steamer Panama, amounted to $912,000. By the steamer Cortes, $1,257,000.

The U. S. ship Saratoga left Norfolk in the Illinois, arrived safe at Olaspo!

A revolution has broken out at Bogota. A new provincial government has been established, and General Melo has declared himself Dictator.

Gen. Melo had arrested President Obando and other government officers.

The Governor of Carthagena favors the rebellion, and a general excitement has been created throughout the country.

Dates from Acapulco are to May 5, Santa Anna broke up his encampment on the 25th of April, retreating towards the City of Mexico. He had previously demanded the surrender of the castle, but was answered by a discharge of round shot, killing six men.

The ship Emily Taylor returned to Valparaiso April 13, with her crew in a state of mutiny, having on the 5th, at sea, bored into and attempted to sink the ship.

Advices from Oregon state that Major C. H. Larned, U. S. A., had been drowned in Puget's Sound, together with eight men.

California News, *San Francisco, May 1* Among the killed by the explosion of the steamer Gazelle, was David Paige of San Francisco, whose wife was killed last fall by the explosion of the Jenny Lind.

The steamer Pacific, from San Juan, and Yankee Blade, from Aspinwall, have not yet arrived.

The barque Walter Claxton laid in the mouth of the Albion Harbor, bottom up. The body of Capt. Folger was found on the 26th ult., half a mile north of Albion river.

The ship Lady Pierce, with her owner, Mr. Silas E. Barrows, clears to-day for Japan, in hopes of finding a free permit to trade by the time she reaches Jeddo.

Benj. F. West a portrait painter, formerly residing in Salem, Mass., committed suicide in the town of Freeman, recently.

The prominent portion of the California news has been already telegraphed via New Orleans.

Why are so many Ships Lost? During a period of eighteen months, ending in September, 1853, one hundred and three ships and barks, one hundred and forty-four brigs, and three hundred and twenty-seven schooners and sloops, were lost at sea—fifty vessels, which had previously sailed, were never afterwards heard from; eight hundred and thirty-eight put into port in distress, and one hundred and two wrecks were passed—making a total loss, for the period given, as calculated by a writer in the Boston Atlas, of one vessel lost every 11 hours; one stranded every 44 hours; one abandoned every 75 hours, and one sailing and never afterwards heard from, every ten days. Such a statement as this should awaken earnest inquiry concerning the causes of these disasters. The calculation is almost exclusively confined to American shipping. Men can read it unmoved, and yet if the loss of life, as well as of property, had been included, and if the dreadful sufferings of the dead and the bereaved could be set forth, the horrors of the picture would be infinitely increased.

Some inquiry ought to be made into the causes of these disasters. They must be due to some cause sufficiently general to be detected—and sufficiently definite to be susceptible of a remedy. Ship owners are too often satisfied if they can effect and recover heavy insurances on their losses, and are apt to dismiss the matter as the result entirely of accidents over which they have no control. A writer in the Philadelphia Bulletin suggests the following as among the causes to which these disasters are mainly due:

1. The unfitness of vessels themselves.
2. Vessels, beside being unseaworthy and overloaded, are entrusted, oftentimes, to the most incompetent and careless masters.
3. Weakness and inefficiency of crews.
4. Vessels are generally supplied with the requisite appliances for safe navigation, viz: instruments, books and charts.

Here is groundwork for investigation; and every vessel and crew should be subject to it before leaving our harbor.—[New York Times

[The Times omits one rather efficient cause of shipwreck—viz. bad weather.]

Great Fermentation in New Brunswick. The St. John New Brunswicker of the 22d says:—

The freshet in the River St. John is the greatest and most disastrous of any within the memory of the oldest inhabitant. All the low lands along the banks are submerged, and farms, cattle, lumber, &c. have been swept away. At Canning and some other settlements the inhabitants have been compelled to leave their houses and remove to the high lands, in order to avoid the danger of being drowned.—At Indian Town the water is several inches higher than it was ever before known, and the rain which has fallen for the past few days is causing it rapidly to advance. As there is yet considerable snow in the woods, it is feared that if more rain should fall the result will be still more disastrous. Our harbor continues more or less full of logs and drift stuff, swept down from the upper country.

From other quarters, we learn that the rivers and streams are much swollen in consequence of the melting snow, and it is said that the bridge over Hammond River has been swept away.

The Eastern Question. From the beginning this Eastern Question seems to have been guided by an invisible agency superior to anything human; for among the parties interested, there is not one who has wished for war, not one, including the Czar himself, who has not proclaimed to the world his earnest desire for peace, and yet the world is led to war, as if a war had long been among the decrees of God!

One day, Bonaparte, then First Consul, suddenly to Madame de Clermont Tonnere, "Madame, what do you think of me?" After a moment's hesitation, she replied: "General, I think that you resemble a skillful architect who wishes to conceal the monument he is building, until it is entirely finished. You are building but and a scaffold, which you will remove when your work is finished." She thought that in Bonaparte's mind, the scaffold concealed restoration of the legitimate dynasty. She was deceived concerning the intentions of this man; but her remark is none the less true when applied to the general course of human events, and it is quoted by a journal which says, that the real architect in this Eastern Question is God! At this moment we see an immense scaffold arising in the East. Many laborers are at work upon it, but the secret of the architect will appear only when the monument is the shed, and the scaffold removed.—[Paris Cor. of the Courier des Etats Unis.

The latest news, by mail and telegraph, will be found on third page.

Dominica. The Traveller, alluding to Senator Douglas's proposition for recognizing the independence of Dominica says:

The republic of Dominica is the old Spanish portion of the island of Hayti, now independent of the Haytien imperial government. Its population, not exceeding 200,000, is composed of Spaniards, Creoles and blacks. The independence of Dominica has never been acknowledged by the Haytien Emperor, except by an armistice of ten years, agreed upon three or four years ago. Its acknowledgment by the United States may place us under some sort of obligation to defend it when Soulouque shall again undertake the work of annexation, and finally lead to the Americanization of the whole island of Hayti, as well as Cuba.

Death of a Venerable Clergyman. We learn that the Rev. Ebenezer Hill died at his late residence in Mason, N. H., on Saturday last, aged eighty-eight years. He graduated at Harvard College, in the class with John Quincy Adams. Notwithstanding he was a somewhat eccentric man, he was an able preacher, and much beloved by his people. He spent most of his lifetime in Mason, as pastor of the Congregational Society. He has not preached any for the last few years, owing to his infirmities, and during most of the last year has been deprived altogether of his reason. He leaves a wife and four children, one of whom is an able clergyman, settled in the West. Another son is a member of the present Legislature of Maine.—Boston Times.

The member referred to is John B. Hill Esq. of this city.

A Remnant of Ancient Superstition. A German, known as Dutch Charlie, was recently murdered in Colorado county, Texas. As the body was surrounded by people, an Irishman proposed that those present should successively place their hands upon the body of the deceased—believing that whenever the murderer touched it the wounds would commence bleeding anew. The suggestion was acted upon; and says a correspondent of the Richmond (Va.) Inquirer, as soon as a man named Hilterbrent applied his hand, the blood began to flow.—Hilterbrent was arrested, and shortly afterwards committed suicide by hanging himself.

[We re-publish the following, for the correction of a material error made by the compositor.]

For the Whig & Courier.

To Israel Washburn, Jr.

Representative in Congress from Penobscot County.

All hail to thee, thou Champion of our State!
Thou guardian of its interests in this hour
Of mad attempt to strengthen Slavery's power,
And fix on Freedom's soil its curse and fate!
Thou art not ashamed before the proud and great—
None greater than thyself—to utter forth
The free, bold language of thy native North!
A language taught by Nature's all blest,
Ipsiletters mountains, and the rushing streams,
Broad-bosomed lakes, and forests unexplored,
The deafening thunder, and the lightning's gleams.
And all that tells of Freedom seen or heard—
This is thy language—*thine, too, the reward!*

BANGOR, May, 1854.

DIED

In this city, Thursday, 25th inst. Mary, wife of Capt. Sylvanus Rich, in the 60th year of her age. Long will her precious mem ry be cherished in the bosom of her friends.

(Funeral from the residence of Mr. Rich on Saturday, at one and a half o'clock P. M.

In Norridgewock, 12th inst. Mr Philip Dunmore, aged about 66.

In Skowhegan, 22d inst. Mr B. Harris, aged 24.

In West Waterville, 23d inst. Elihu Swinson, age 31.

In Waterville, Miss Abby S., wife of Mr Franklin Marston, aged 25; 5th inst. Mr James Chenery, aged 82 years 6 months.

In Boston, Lucia A. daughter of the late Isaac Crowell, of West Waterville, aged 40.

In Fairfield, 6th inst. Hannah C., wife of Franklin Lawrence, aged 25.

In Winthrop, Alexander Belcher, aged 77.

In Saco, 17th inst Mr Joseph Sewall, aged 19.

In Belfast, 4th inst. Mr James Pendleton, aged 73.

DR. ORDWAY'S HUMOR DISCOVERY, —AND— BLOOD PURIFIER.

DR. ORDWAY has been using his Blood Purifier in his practice for the last seven years, with great success. He has often been urged by his friends, and those who have tried it and know its efficiency, to put it within the reach of all.

It has now added to it an *Herb discovered in California*, by Dr. KELLEY, which makes it the most wonderful remedy for

HUMORS OF ALL KINDS,

LIVER COMPLAINTS, CHRONIC DISEASES, &c.

The virtues of this Herb were first made known to Dr. Kelley by an Indian, while attending a patient sick with that terrible disease, the California Erysipelas and Liver Complaint.

The effect was miraculous, curing the patient a few days.

The natives, when bitten by a rattlesnake or rabid animal, resort to this Herb for a cure.

Hundreds are taking this medicine, after trying in vain other remedies, and say the half was never told them.

Discovery of the California Herb.

About the first of March, in the year 1849 Dr. Kelley sailed from Boston in the ship "Sea Ben" for California, and arrived at San Francisco in July following. He spent considerable time in travelling the country and mining, but the greater portion of which was spent in the practice of his profession.

While he was practicing in the vicinity of Auburn, between the north and south forks of the American river, he frequently noticed the Indians gathering an Herb, which they held in high estimation in curing diseases, bites of rattlesnakes, and rabid animals.

While doctoring a miner for that terrible disease, the California Erysipelas and Liver Complaint, an Indian (whose life he had previously saved while in a quarrel with some miners) saw what Herb which he called "*Yaba-ewchaw*," (which means well cure,) he told him to give the "*supra*" (man). The effect he found to be so wonderful, curing the man in a few days

He afterwards used the Herb in his practice and found it to possess new and remarkable properties for all kinds of Humors, Liver Complaints, Dyspepsia, Rheumatism, Scrofula, Running Ulcers, Mercurial Diseases, Sick Headache, Kidney Complaints, and a great *alterative and Purifier of the Blood.*

The above is in substance the discovery and medicinal properties of this useful herb, as stated by Dr. Kelley, on his return.

Upon trial, its virtues have been found so far exceed its reputation as the most valuable Medical Herb yet discovered.

Hear a Mother's Voice from the Granite State.

MR. ORDWAY: Dear Sir—Since we have kept your medicines for sale, we have heard several bottles of your Blood Purifier our family, and from the effects produced, we believe it to be an invaluable medicine.

I wish to inform you particularly what it has done to my little boy, (who is now six years of age,) and his mother. He had been troubled from his infancy, on account of being afflicted with *general humor*, producing *Indigestion* and *Costiveness*, at times, great *Emaciation and Emergency of the system.* One year ago last summer and fall he was nearly afflicted with *Cholera in the month and bowel*, so that at times it was discouraging to witness the pain and agony of the little sufferer while trying to eat the food, (food, I had not know what course to pursue with him, he was so miserably so, that I by taking one bottle of your *Blood Purifier*, and administering it to him about the first of those attacks, happily to say that by taking one bottle he was so much improved, that after taking the two bottles in succession, he then threw aside his bile, appeared to be in perfect health, and remained so until he was seized with the influenza in April, which left him with a severe cough, but we succeeded in relieving that in a few weeks. In July he took cold and I was apprehensive again we should have trouble, but we were troubled with indigestion and loss of appetite and took he was so emaciated that my friends were afraid he was going into a decline.

As soon as his cough was relieved, we commenced giving him the *Purifier* again to restore his health, and in a short time he began to gain flesh. And by the blessings of Almighty God, he is now well and has been for two months past, the picture of health.

I can confidently recommend the Blood Purifier to all who are afflicted with scrofula in any form.

We have also made use of the Purifier as a *preventative* after being exposed to the small pox, for the very most of Medicines is all such cases, for regulating the digestion, and removing all morbid matter from the system, and restoring health and vigor.

(Signed) MRS. B. SANBORN.

LAND OFFICE.

Bangor, May 19, 1854

SEALED PROPOSALS will be received at this office till the twentieth day of June next for furnishing materials, and constructing the masonry, for the Mattawamkeag Bridge.

Persons proposing to build will state the price demanded per cubic yard.

The contractor will be required to remove the old piers and abutments, and to furnish materials and construct necessary bands to sustain the bridge in a proper manner while taking down the old and building the new piers and abutments, and he will also be required to place (in a suitable manner) the bridge upon the new piers and abutments as soon as they shall have been completed.

Separate proposals will also be received for furnishing materials for, and constructing the bank walls, and the abutments for small bridge. This work to be of a good kind of culvert masonry.

More particular information may be obtained by an examination of the plans, &c., in the Land Office.

GEORGE C. GETCHELL,
to3n20d&w m20 Land Agent.

(Bangor Democrat, Age, People's Press and Piscataquis Observer, copy.)

ROAD CONTRACT.

THE undersigned will receive proposals until the tenth day of June next, to build the following described streets, on the Davenport Lands, in Bangor, viz

SEVENTH STREET, extending from Union to Hammond street, 1450 feet in length, with a double track, each 20 feet wide, and main between same.

CEDAR STREET, from Hammond to Seventh street, 772 feet in length, a single track 30 feet in width.

HAYWARD STREET, from Seventh to Pond street, 556 feet in length of same width.

Said streets to be made agreeable to specifications to be seen at my office. ALBERT W. PAINE,
Bangor, May 23, 1854. Mercury copy 4tdw

THE NEBRASKA BILL, PASSED IN THE SENATE.

Boston, May 26th.

The Senate, last night passed the Nebraska bill, as received from the House. Yeas 35; nays 13. At 14 o'clock adjourned to Monday.

REVOLUTION IN NICARAGUA.

New York, May 26, 1854.

The steamer Northern Light brings intelligence that a revolution has broken out in Nicaragua, under the leadership of Senor Castellon, who came from Honduras, with considerable force and captured Realejo and Chinandega and marched thence upon Leon, the Capital.—The whole country was under arms. The President with the Government officers had removed to Leon, with the intention of resisting an attack meditated against that strong hold. Castellan, Guerro, Xeres and Diaz, who are at the head of the movement, were banished from Nicaragua, a few weeks before the present revolution, on suspicion of being engaged in a conspiracy to overthrow the administration of Chamorro. This act, however, only delayed for a brief period the execution of their plans, for on arriving in Honduras, they commenced operations anew, receiving, as is believed, assistance from that country. Their forces at present number nearly 1000, men—about equal in strength to those of Chamorro.

NEW PHASE OF THE CUBA QUESTION.

The Washington correspondent of the Courier and Enquirer, telegraph as follows: The latest rumor which I regard as authentic, is that G. M. Dallas and Ex-Governor Cobb are to be dispatched to Spain as Special Commissioners, with the ultimatum of this Government in relation to Cuba. In the mean time the President will issue a proclamation against Filibusters. The Filibuster organs pretend that they will have a new expedition organized under Gen. Quitman, and that they have raised $1,000,000 by bonds of the Provisional Cuban Government.

ARRIVAL OF CITY OF MANCHESTER.

Philadelphia, May 26.

The steamer City of Manchester, from Liverpool, arrived this morning. She brings over 700 passengers.

XXXIIId CONGRESS.

Washington, May 24.

SENATE.

In the Senate, various memorials and remonstrances were presented, among them ten by Mr. Seward, against the Nebraska bill, including one from 105 Methodist clergymen and 434 other clergymen of Michigan. A warm debate ensued between Messrs Seward, Clayton and Benjamin, on the resolution of the Louisiana Legislature concerning the Africanization of Cuba.

Mr. Benjamin's resolution on the Africanization of Cuba was discussed at considerable length by Messrs. Benjamin and Gwin, who contended that the purpose of Spain to eventually emancipate the blacks on the island was too apparent to be misunderstood; and by Messrs Seward and Clayton, who as strenuously insisted that no such purpose was manifested, and that it would be an act of folly on our government, in the present state of affairs, to take any action on the matter.

Mr. Douglas called up the Nebraska bill, when Mr. Pearce of Maryland moved the Clayton amendment, and spoke at length in favor of its restoration to the bill.

HOUSE.

The Pacific Railroad bill was postponed until to-morrow, and the Deficiency bill was taken up, and considered until the hour of adjournment.

ARREST OF A FUGITIVE SLAVE. Considerable excitement was caused in Boston Thursday morning, by a rumor that a fugitive had been arrested the evening previous. His name is Anthony Burns, and he was arrested at the head of Brattle street, on his way from his shop, on a warrant issued by U. S. Commissioner Loring, at the instance of one Charles F. Suttle, of Alexandria, Va., who claims him as his property.

A partial examination took place on Thursday morning, but on motion of Mr. Dana, counsel for the defence further proceedings in the case were postponed until Saturday morning at 9 o'clock.

DR. McRUER WILL, specially, attend to the following departments of Medicine and Surgery: The diagnosis of cases of obscure disease. For this purpose he can bring to his aid a familiar acquaintance with the Stethoscope, Microscope, and Test Tube. The treatment of the diseases of the Eye and Ear. The Surgical treatment of Deformities. The radical cure of Ruptures. Dr. McR. attended the Hospitals of New York and Philadelphia the past winter, informing himself of all the recent improvements and discoveries in the healing art, and has been furnished with the necessary instruments and apparatus for accomplishing the above intentions. Arrangements have been made with housekeepers, in his immediate neighborhood, for the accommodation of patients, from a distance, with board on reasonable terms. Bangor, May 2, 1854 dlm y6m

Dr. McRuer, IN consequence of impaired health, will confine himself, for the present, to office consultations, and medical practice among his old patrons as may be attended within the limits of a short walk from his residence on State street. Bangor, Apr. 24, 1854.

GILS M. MORSE, Sup't.

Waterville, April 1, 1854

KENNEDY'S

The Greatest of the Age.

MR. KENNEDY, of Roxbury, has discovered in the form of common mustard, which a ready cure for *EVERY KIND OF HUMOR*, from the worst Scrofula down to all common Pimples. He has tried it in over a hundred cases, and never failed in a single instance. He has now in his possession over two hundred certificates of its value, and within twenty miles of Boston.

Two Bottles are warranted to cure a running sore mouth.

Two to four bottles will cure the worst kind of pimples on the face.

Two to three bottles will cure the system of bile.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to six bottles are warranted to cure the worst cases of scrofulas.

One to two bottles are warranted to cure all humors in the eyes.

Two bottles are warranted to cure running in the ears and blotches in the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly erruptions of the skin.

Two to three bottles are warranted to cure the worst case of ring worm.

Two to three bottles are warranted to cure the most desperate cases of rheumatism.

Three to six bottles are warranted to cure salt rheum.

Five to eight bottles will cure the very worst case of Scrofula

It has always experienced from the first bottle, and a perfect cure warranted, when the above quantity is taken.

Nothing looks so improbable to those who have in vain tried all the wonderful nostrums of the day as that a common weed, growing upon the pastures and along old stone walls, should cure every humor in the system; yet it is now a fixed fact.—If you have a humor it has to start. There are no more words about it, nothing soothe cases, but not yours. He has sealed over a thousand bottles of it in the vicinity of Boston, and have the effects of it in every case. It has already done some of the greatest cures ever done in Massachusetts. He gave it to children a year old, to old people of sixty, and has seen many looking children, whose faces were full of humor and blotches, restored to perfect state of health by one bottle.

To those who are subject to a sick headache, one bottle will always cure it. It gives great relief in catarrh and dizziness. Some who have taken it have been positive for years, and have been regulated by it. Will see the body is scaped twenty times a day, but where there is any derangement of the functions of nature, it will cause very singular feelings, but you must not be alarmed—they always disappear in from four days to a week. There is no pain, and we all know that to be contrary, when that healing is going, you will feel yourself like a new person. Heard some of the most extravagant encomiums of it that ever man listened to.

No change of diet over a penny. Eat the best you can get, and enough of it.

HOXSEY, Sept 19, 1853.

This is to certify that H. B. HAY, Druggist, Portland, is the duly AUTHORISED GENERAL AGENT for my MEDICAL DISCOVERY for the STATE OF MAINE, and that he is supplied with the GENUINE, direct from my Laboratory.

(Signed) DONALD KENNEDY.

WILCOR'S COMPOUND OF

PURE COD LIVER OIL AND LIME.

THIS valuable medicine, which has received the sanction of the medical faculty, by which it is regularly prescribed, and which has been attended successfully by thousands of invalids, is one of the most remarkable preparations ever offered to the public for the cure of

CONSUMPTION, SCROFULA, COUGHS, COLDS, ASTHMA, BRONCHITIS, SPITTING OF BLOOD AND ALL COMPLAINTS OF THE LUNGS.

Pure Cod Liver Oil has long been acknowledged to be the most efficacious article for the cure of Consumption and kindred diseases, yet discovered, while the chemical properties of the PHOSPHATES OF LIME are also well known to medicine as being peculiarly healing. In cases where a cure has been effected on the lungs, this article has been found, by the most careful tests, to supply the very elements necessary for the formation of bone and the complete healing of this delicate part of the human system.

This preparation of the pure Cod Liver Oil and Lime rots the oil of its very nauseating taste, which renders it so repulsive, particularly to invalids.—The thorough incorporation of the Phosphate of Lime with the Oil has only been accomplished by the adoption of the most perfect rules of chemistry, and a medicine has thereby been produced which is of incalculable value in ultimate life our own.

A long array of certificates might be given here to prove the efficacious character of this medicine, but it is not deemed necessary. The fact that from the very first introduction of the Cod Liver Oil and Lime before the public, it has been gradually adopted by the medical faculty, is sufficient proof of its unquestioned excellence.

NUMBER ALTERED.

NEW ENGLAND TRUSS MANUFACTORY.

JAMES FREDERICK FOSTER,

MANUFACTURER OF

Rarchet and Spiral Trusses,

533 (*opposite 516*) *Washington street*, 533.

BOSTON, MASS.

A large variety of approved TRUSSES constantly on hand.

☞Ladies waited upon by Mrs. Caroline D Foster, who has had *twenty years'* experience in the business

He will keep a full supply of ready-made Trusses for Gentlemen and Ladies, Youths and Infants—Abdominal Supporters, Shoulder Braces, Crutches, such as Hills, Chapin's Spiral, Cumming's, Fitch's, Ingalls', &c., &c.

TESTIMONIALS.

The following certificate from Dr John C. Warren, of Boston, was given 17 years ago, but will not over.

Boston, Jan. 5, 1852

Having had occasion to observe that some persons afflicted with Hernia, have suffered much from the want of a skilful workman in accommodating Trusses to the peculiarities of their cases, I have taken pains to inform the officers concerned in the business of Mr. J. F. Foster, to supply the deficiency occasioned by the death of Mr. Bennett. After some months of observation of his work, am well satisfied that Mr Foster is well acquainted with the mechanism of these instruments, and ingenious in accommodating to the variety of cases which occur. I feel much pleasure in recommending him to my professional brethren, and to the public as a person well fitted to supply their wants in regard to Trusses.

JOHN C. WARREN, M. D.

The undersigned take great pleasure in recommending to the favorable consideration of those who are still applying at times, Mr. James Frederick Foster, as a skilful and competent person in the manufacture and fitting of Trusses. We have employed him (some of us over twenty years) and have found great personal knowledge of his abilities. His early and marked success in life, has increased as his years and experience have accumulated, which has enabled him to relieve a variety of cases, which, in our opinion, equal, if not superior, to any manufacturer of the world. His Elastic Truss, Hodges, Foster, of Abernethy, was made for the Poor House so that town for upwards of twenty-five years, during which he made Mr. Foster a liberal allowance for the support of the opposite sex. He has now in his possession over two hundred certificates of his value, within twenty miles of Boston.

Two Bottles are warranted to cure a running sore mouth.

Two to four bottles will cure the worst kind of pimples on the face.

Two to three bottles will cure the system of bile.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to six bottles are warranted to cure the worst cases of scrofulas.

One to two bottles are warranted to cure all humors in the eyes.

Two bottles are warranted to cure running in the ears and blotches in the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly erruptions of the skin.

Two to three bottles are warranted to cure the worst case of ring worm.

Two to three bottles are warranted to cure the most desperate cases of rheumatism.

Three to six bottles are warranted to cure salt rheum.

Five to eight bottles will cure the very worst case of Scrofula

It has always experienced from the first bottle, and a perfect cure warranted, when the above quantity is taken.

Nothing looks so improbable to those who have in vain tried all the wonderful nostrums of the day as that a common weed, growing upon the pastures and along old stone walls, should cure every humor in the system; yet it is now a fixed fact.—If you have a humor it has to start. There are no more words about it, nothing soothe cases, but not yours. He has sealed over a thousand bottles of it in the vicinity of Boston, and have the effects of it in every case. It has already done some of the greatest cures ever done in Massachusetts. He gave it to children a year old, to old people of sixty, and has seen many looking children, whose faces were full of humor and blotches, restored to perfect state of health by one bottle.

To those who are subject to a sick headache, one bottle will always cure it. It gives great relief in catarrh and dizziness. Some who have taken it have been positive for years, and have been regulated by it. Will see the body is scaped twenty times a day, but where there is any derangement of the functions of nature, it will cause very singular feelings, but you must not be alarmed—they always disappear in from four days to a week. There is no pain, and we all know that to be contrary, when that healing is going, you will feel yourself like a new person. Heard some of the most extravagant encomiums of it that ever man listened to.

No change of diet over a penny. Eat the best you can get, and enough of it.

HOXSEY, Sept 19, 1853.

This is to certify that H. B. HAY, Druggist, Portland, is the duly AUTHORISED GENERAL AGENT for my MEDICAL DISCOVERY for the STATE OF MAINE, and that he is supplied with the GENUINE, direct from my Laboratory.

PATENTS.

American and Foreign Office

AGENCY FOR BUSINESS WITH U. S. PATENT OFFICE.

WASHINGTON.

No. 76 State Street, opposite Kilby St., BOSTON.

IMPORTANT INFORMATION TO INVENTORS! The subscriber (late Assistant in U. S. Patent Office, under the Act of 1837) directing his prosecution of claims, in applying for patents, superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (Patent of *twenty*, is rail back by others) will be returned by him in case of failure to obtain a patent, and the withdrawal of caveats within thirty days after the receipt of notice. Specifications, assignments, and all necessary papers and drawings for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringements of patents.

Inventors can not only have obtain their specification on Patent reasonable terms, but can avail themselves of the experience of the examiner, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there, as well as the personal trouble in obtaining their patents. Copies of claims of any patent furnished by me for a dollar. All communications received at Washington.

R. H. EDDY.

Solicitor of Patents.

"During the time I occupied the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons at any time, who had so much business, or who stood so well at the Patent Office; and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in testing inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them as early and favorable consideration at the Patent Office.

EDMUND BURKE,

Late Commissioner of Patents.

"PATENT OFFICE,

"R. H. EDDY, Esq., Boston, Mass.

Sir—Your facilities for the prosecution of any business connected with this office, are equal to those of any other agent. I am very respectfully, yours, &c.,

THOMAS EWBANK,

Commissioner of Patents

DEDICATED INHALATION.

A NEW METHOD.

A MOST WONDERFUL DISCOVERY has recently been made by Dr. CURTIS, for the cure of Asthma, Consumption, Bronchitis, Coughs, Colds, and all Lung Complaints, by Medicated Inhalation. Dr. CURTIS'S HYGEANA, or INHALING HYGEAN VAPOR and CHERRY SYRUP, has become fished the most wonderful cures of Asthma and Consumption in the city of New York and vicinity for a few months past, ever known to man. It is producing an impression in diseases of the Lungs never before witnessed by the medical profession. [See certificates in hands of Agents]

The Inhaler is worn on the breast, under the shirt, without the least inconvenience, the heat of the body being sufficient to evaporate the fluid, supplying the lungs constantly with a healing and agreeable vapor, passing into all the air-cells and passages of the lungs, that cannot possibly be reached by any other medicine. Here is a case of a period.

THOMAS HOLLOWAY,

38 Corner of Ann and Nassau Sts, New York.

ASTONISHING CURE OF SORE LEGS AFTER NINE YEARS STANDING.

Copy of a Letter fro Mr. W. J. Langley of Hardeville, Yadkin county, North Carolina, U. S., dated November 1st, 1853.

☞READ HIS OWN WORDS ☜

To Prof. THOS HOLLOWAY:

Sir,—I think my well to become a sensible feeling to this be let wishes for the same end of writing, to say, that your Ointment cured me of one of the most disastrous diseases that flesh is heir to, and which was considered by all who knew me to be incurable. I had been the rest of medicine for nine years. I was afflicted with one of the most painful and troublesome sore legs that ever fell to the lot of any mortal for nine years. The physicians gave me up as incurable. I despaired of your ever being restored to health, to my agreeable surprise and delight, I put the ointment and pills in use, and in a few days I found the sore commencing to heal, and I have been restored to health, to my agreeable surprise and delight, and to the astonishment of my friends.

(Signed) W. J. LANGLEY.

AN EXTRAORDINARY CURE OF A BADLY DISEASED LEG WHEN NEARLY AT THE POINT OF DEATH.

Copy of a Letter from Mr. R. Duncan, New Orleans, November 24, 1853.

To Professor HOLLOWAY, 38, Corner of Ann and Nassau streets, N. Y.:

Dear Sir,—It is with the heart felt gratitude I have to inform you that by the use of your Ointment and Pills, in your Cure of my leg has been saved. For seven years I had a bad sector which been running, supposed (and a cancer, I am sure.) I was told this nothing could save her, she was then reduced to only by Ointment and Pills, we are in the slightest sense of true gratitude, her at perfect cure, a the satisfactory of all who know us. We ascribed your medicines (not Mr. Wright's Co., of Chatham street, New Orleans) to the first "Hold the Princess." For a stimulant I have written to New Orleans because we finally left at that time, not knowing your address at New York.

(Signed) R. DUNCAN.

The Pills should be used conjointly with the Ointment in most of the following cases:

Bad Legs,	Fistulas,	Scalds
Bad Breasts,	Gout,	Sore Nipples,

DR. MORSE'S

Invigorating Cordial,

.....[A .....]

Phenomenon in Medicine.

Health Restored & Life Lightened by Dr. Morse's Invigorating Elixir, or Cordial.

For centuries, Medical science has been searching the vegetable and mineral kingdoms, in search of something that should restore the lost or decaying energies of the nervous and muscular systems, without the fearful lack of subsequent prostration, which all stimulants, tonics and narcotics had heretofore entailed.—*This something has been found.* It is a vegetable production, brought from the sacred Island of Arabia the home, by the celebrated Professor M. Morse, well known as a distinguished member of the leading scientific societies of the Old World, and equally distinguished as a physician, a chemist and a traveller. The juices of Lichen, is concentrated and combined with other vegetable medicinal extracts, are now producing results heretofore unknown in the medical profession. All the properties attributed to Prof. MORSE'S INVIGORATING ELIXIR OR CORDIAL, are decided facts. The public often deceived could not believe the simple and sublime truths announced by the discoverer. But facts, undeniable facts, attested by well known and respectable citizens, and character, are disarming over all doubts, and rendering it unnecessary to give a deal of testimony which is perfectly irresistible.

"The ELIXIR remedies, in all cases, the deplorable consequences from a relaxed or debilitated state of the nervous system which make up the wonderful machine called man. It restores to full vigor every delicate function connected with that long series compound agency of matter and mind, necessary to the perfect enjoyment of the proper enjoyment of all the natural appetites, as well as the higher mental attributes. Its beneficial effects are not confined to any sex or to any age. The feeble girl, the aching wife, the listless, emaciated youth, the over worn man of business, the victim of nervous depression, the unwilling suffering from general debility, or from the sensitiveness of a single organ, with all the immediate and permanent relief, from the use of the incomparable remedy. To those who have a predisposition to paralysis it will create a complete and suffering safeguard against that terrible malady. There are many perhaps, who are so often trifled with their constitutions, that they think it is beyond the reach of medicines. Let them take the Elixir, and the complete functions, perfect health, and the complete vitality of the heart, mental depression, weak sight, the will, indisposition to move, fountains of the nervous, broken sleep and disturbing dreams, will be to them as the magic wand of the enchanter, and the practical cordial, sexual incompetency, melancholy, nervousness, fluid albus, sinking of the stomach, flatulency, irregularity, chronic tendency to sleep, nervous exhaustion, and all complaints growing out of a free indulgence of the passions, and all barrenness, but does not destroy, but restore from organic causes beyond the reach of medicine.

Whenever the organs to be acted upon are free from inflammation or structural disease it is overall that

MORSE'S INVIGORATING ELIXIR

Will effectually restore vigor and strength, promptly with efficiency, regularity with uniform and unfailing action at every and at this entirely without hazard of reaction, but will always effect on the general organ action. ☞To the nervous, or muscular system, the only begin, restoration of the nervous system, and that the permanent of the power of action and sensation is *physical death*. Death in truth, is only the exhaustion of the nerve the disease the Elixir cordial is the only relief in physical knowledge, and the only relief in physical death.

CURE OF NERVOUS DISEASES

No language can convey an adequate idea of the astonished and almost miraculous change which it effects in the diseased, debilitated and shattered nervous system, whether broken down by excess, over study, or, in short by sickness, the unstrung and relaxed energies will at once bound to vivid and buoyant action, and the power of nervous disease vanish as another under its influence. Nor is the effect temporary, on the contrary, the relief is permanent, for it is one of properties of its medicine to reach the constitution and restore it to its normal condition.

LOSS OF MEMORY.

Confusion, giddiness, rush of blood to the head, melancholy, weak of debility, hysteria, nervousness, thoughts of self destruction, fear of insanity, hypochondriasis, dizziness, general prostration, irritability, nervousness, inability to sleep, diseases incident to females, decay of the living functions, hysteria, dyspepsia, constipation, weakness of the heart, impotency, consumption, all of which, from whatever cause arising it is, if time, it may which can be placed on human testimony, absolutely and infallibly.

A GREAT MEDICINE FOR FEMALES

The unparalleled effects of this great restorative in all complaints incident to females, mark a new era in the science of medicine. The Medical world, it has been invoked—thousands of participants consulted—it has proved to be specific in two various diseases and symptoms, and to which the delicate formation of the female gender her habits. The result has therefore been unlimited. These diseases have indeed imparted a most powerful shock to the nervous system, a transcendental debility, a prostration of the fibres of the nerves, and been succeeded by a deep sunken and prostration rather than heightened the vital tone of the system, by the power of the Elixir, the nervous system of the nervous and vital organization, and finally to destroy life in a few days.

☞ EVERY WOMAN OF SENSE,

Who suffers from weakness, debilitability, nervousness, nervous pain in the back, or any other disease, which a physician is required, should at once send for a bottle of this Cordial and give it a fair growing Cordial a trial.

MARRIED PERSONS,

or others, will find this Cordial, after they have used a bottle or two, a thorough regenerator of the system. In a short time, and by the simple parentage of this simple preparation. And it is equally potent for the many diseases for which it is recommended. Thus, the loss of time, the loss of money, the loss of health, and in a single instance has it failed to benefit them.

PERSONS OF PALE COMPLEXION,

Consumptive habits are restored by the use of a bottle or two in a room and vigor, changing the skin from a sallow, blow, sickly color, to a beautiful florid complexion.

TO THE MISGUIDED.

There are some of the sad and melancholy effects of the early habits of youth, viz, weakness of the back and limbs, pains in the head, dimness of sight, loss of muscular power, palpitation of the heart, dyspepsia, nervous irritability, disorganized state of the digestive functions, general debility, symptoms of consumption, &c.

Then why, the fearful effects on the mind are much to be dreaded. Loss of memory, confusion of ideas, depression of spirits, evil forbodings, aversion to society, self distrust, love of solitude, timidity, &c., are some of the evils produced. All this without

BEFORE CONTEMPLATING MARRIAGE,

Should reflect that a sound mind and body are the most necessary requisites to promote conjugal happiness. Indeed, without these, the married life becomes a weary pilgrimage, the prospect heavily darkens the view, the mind becomes shadowed with despair, and filled with the miserable reflection that the happiness of life becomes blighted with your own.

PARENTS AND GUARDIANS

are often at a loss with respect to the causes and sources of disease in their sons and wards. How often do they ascribe to a bad cause of weaning of the frame, stinty, weakness, palpitation of the heart, indigestion, derangement of the nervous system, cough and symptoms indicating consumption, when the truth is, that they have been indulging in a pernicious, though alluring practice, destructive with to mind and body.

CAUTION

Dr. Morse's Invigorating Cordial, has been compelled to resort to the stamp, to prevent imposition. In future all the genuine C
